Software Quality Assurance

PERSONAL PROJECTS

Automate job searching | Python3 | Selenium | PyCharm

- No need to search for jobs manually
- Completely in Python with some modules
- The output will be in a format in a file with links to jobs
- <https://github.com/nitinkumar30/auto-search-job-openings>

Automate Investment Platform | Python3 | Selenium | PyCharm

- Tried automating the process of investment in one of the investment platform.
- Fully automated the flow, from login till investment
- Better readability and formatting of code
- <https://github.com/nitinkumar30/automate-investing-website> ↗

Item Order Automation | Python3 | Selenium | PyCharm

- Automated item order feature
- Just need 3 inputs - the product link, your phone number and OTP
- Created own framework for better code readability
- <https://github.com/nitinkumar30/automate-item-order-in-meesho>
